**Store. Charge. Multi-Task.**

We have given our compact, feature rich Multi-Maker Cart the power to charge in a BIG way! While boasting a small footprint, it has the ability to store and charge up to 36 devices in a customizable charging box, which adds a tremendous impact to the already versatile Multi-Maker cart! When it's not being used as a charging cart, it can quickly be transformed into a presentation cart, a makerspace cart for 3D printing, a mobile teacher workstation or a storage solution for any classroom, art room, or media center. Our highly customizable Multi-Maker Charging Cart has everything you need to create efficiency and creativity in the classroom, so let us help you get organized so you can teach!

**Removable Charging Boxes!**  
10, 15 or 18 slots per box
