

Your next generation multi-material PolyJet™ system is within reach with this exclusive offer!

Contact us today and find out how much you can SAVE with your trade-in!

Save on a Stratasys J55™ Prime 3D Printer **or**

Save on a Stratasys J35™ Pro 3D Printer

When you trade in your Objet24, Objet30, Eden or Connex printer.

Upgrade to a J55 Prime today and you'll reap the benefits of multi-material capabilities for visual design, functional design and concept modeling; providing your engineers and designers the versatility to produce parts that match their exact needs.

Option 1: Save on the J55 Prime when you trade-in your Objet24, Objet30, Eden or Connex printer

- Shorten design approval processes from weeks to hours with the use full color CMF models via .3MF file format workflow.
- Create and print up to 500,000 unique Pantone® validated color combinations with 5 materials.
- Create realistic simulations of textures & labels with unrivaled surface finish and feature detail with *New* VeroUltra White & Black
- Print clear material to simulate glass and acrylic with *New* VeroUltraClear
- Combine both Rigid & *New* Flexible Elastico to control shore values & produce overmolds
- Enjoy Low-cost *New* VeroDraftGrey high feature detail concept models
- Limit Material change over and leverage overnight single tray printing of up to 5 materials with the best footprint-to-tray ration on the market.

Upgrade to the J35 Pro to leverage its multi-material capabilities for functional design and concept modeling at a ground breaking price point.

Option 2: Save on the J35 Pro when you trade-in your Objet24, Objet30, Eden or Connex printer

- Create realistic simulations of textures & labels with unrivaled surface finish and feature detail with *New* VeroUltra White & Black
- Print clear material to simulate glass and acrylic with *New* VeroUltraClear
- Combine both Rigid & *New* Flexible Elastico to control shore values & produce overmolds
- Enjoy Low-cost *New* VeroDraftGrey high feature detail concept models
- Limit Material change over and leverage overnight single tray printing of up to 3 materials with the best footprint-to-tray ration on the market.

Not to be combined with any other offer. No substitutions. No additional discounts allowed on this promotion. PO must be received and orders shipped on or before June 30, 2022. Trade-in printers MUST be returned to Stratasys. No "stacking" of discounts on trade-ins.
